Are your professional learning teams on the same page?

P12 Portal A Cohesive Approach to School Improvement

Legacy Pathways' P12 Portal helps to keep everyone's eye on the ball by helping leaders to focus and manage the actions of individuals, teams, and everyone in the school community. Our P12 Portal management system and framework is designed to help sort out the important and unimportant practices, so that teachers and teams do not get lost in organizational details.

Every day school leaders must define and communicate the basic vision and goals of their school and organization. Effective school leaders are always willing to challenge their assumptions about how to better equip their school with the systems and structures needed to roll out the new Common Core Learning Standards and to cohesively manage school improvement efforts.

School leaders must be able to ensure that all stakeholders, at all times, are able to answer the following questions: **What is our school's mission? How do we measure success? What are our expectations for individuals and professional teams? What is the work of teacher teams? To what end do we do what we do? How do we know we are reaching our goals?** These important questions cannot be answered with disparate systems, unorganized lists, and limited tools that are designed that to manage attendance and scheduling.

The P12 Portal drives school and district initiatives!

P12 Portal

WILL HELP YOU TO:

- Inspire individual teachers and teams
- Communicate vision and mission
- Plan and communicate school goals
- Manage the new Common Core roll out
- Communicate high expectations
- Improve collaboration and communication
- Develop better team practices
- Manage curriculum development
- Manage professional meetings and trainings
- Implement systems to gather and analyze data
- Manage external partnerships and initiatives
- Manage the new APPR process
- Provide concrete evidence of your work and the work of teachers and teams
- Monitor and revise practices
- Strengthen management and organizational skills of school administrators

Make an appointment today to get a demonstration of Legacy Pathways' P12 School Improvement Portal!

P12 Portal provides systems and structures for school improvement!

MANAGE VISION AND GOALS

The P12 Portal supports school leaders' efforts by helping them implement and manage vision, mission, strategic plans, structures for improvement, and metrics in complex school environments.

TRANSFORM COMMON CORE AND CURRICULUM DEVELOPMENT

The P12 Portal brings focus and attention to the new Common Core Learning Standards by creating a shared space and ground-breaking cloud based territory where teachers with diverse strengths, interests, and objectives can finally come together.

The P12 Portal drives expectations and ensures that the work of all teachers and teams are visible, readily available, and transparent.

MONITOR AND REVISE PRACTICES

The P12 Portal helps principals and leaders drive school improvement school through consistent monitoring and revising teacher teams activities and school based practices.

The P12 Portal cohesively organizes the roll out of the new Common Core Learning Standards, school based projects and initiatives, and the work of individual and teams of teachers.

IMPROVE COLLABORATION

P12 Portal revolutionizes team collaboration within schools. Teacher teams and other school based professional learning communities can easily access cloud based P12 Portal to document and organize meeting notes, agendas, curriculum documents, and other instructional resources. Teachers develop new behaviors as they become more organized in their efforts.

MANAGE APPR

The P12 Portal is a powerful solution to helping principals organize teachers to meet the goals of the new APPR process. Teachers are able to access and document work efforts using cloud based system that organizes teacher artifacts.

BRIDGE COMMUNICATION

The P12 Portal is a systemic approach to improving communication among all stakeholders within the school community. Teachers and stakeholders utilize our cloud based system to help everyone involved understand and take ownership of what work needs to be done, why, and the roles and responsibilities of individual teachers, team members and the members of school community.

The P12 Portal changes how principals and administrators manage school efforts.

Here is what some of our principals had to say about the P12 Portal:

“The P12 Portal changed how I manage school initiatives, Common Core rollout, and my school based teams.”

“Organizing the many teacher artifacts for APPR goals is no longer a concern now that we have the Portal.”

“Finally a system that puts an end to all the disparate systems within my district.”

“The Portal has allowed me to roll out the school year and demonstrates how my efforts are aligned to my school CEP goals.”

“Transparency is always what you are working towards as a school principal. The P12 Portal is a transparent system that allows all my teams to see and revise their work products.”

“School goals, resources, and timelines are better organized as a result of the implementation of the P12 Portal.”
